 Willing to Relocate

 oriodev.com

A proactive problem solver with natural curiosity and a thirst for learning. Commercial development experience gained as a Front End Developer Intern. Expertise in developing accessible, responsive, performant full-stack applications with JavaScript, TypeScript and React.js.

## WORK EXPERIENCE

### Front End Developer Intern

June 2024 - August 2024

TodayTix Group

- Worked on eCommerce site, completing 15+ BAU tickets to improve user experience and retention, using React.js, HTML/CSS, TypeScript, Jest, and Cypress.
- Collaborated across front end, back end, and internal tooling to develop the 'Cast Outages' feature.
- Contributed to the setup of Cypress as the new E2E test provider and implemented tests to enhance quality assurance.

### Technical & Financial Lead

Oct 2024 - May 2025

CONKR.

- Acted as technical and financial lead for the CONKR start up through ideation, initial development, and investment pitching to two panels, demonstrating innovation and problem solving skills.
- Created financial projections and key performance metrics to guide business strategy.
- Developed and launched the landing page with Wordpress, achieving 400+ website visits and contributing to a reach of 7000+ users on Instagram.

### Freelance Website Developer

August 2024 - January 2025

- Developed 5+ websites to boost sales for local businesses using WordPress and Wix.
- Implemented SEO strategies and key design principles to enhance user experience and drive traffic.

### Assistant Project Manager

July 2023 - December 2024

Community Money Advice

- Supported senior manager in execution of the Catalyst software project.
- Took on additional responsibility to deliver the project on time and on budget despite major setbacks.
- Created and handled key project management documentation to keep the project on track, including numerous spreadsheets and utilising GitLab to create 50+ detailed tickets for the development team.
- Coordinated a team of 20+ User Acceptance Testers through four stages of user acceptance testing.

## VOLUNTARY EXPERIENCE

### Administrator

September 2022 - June 2023

Riverside Money Advice

- Served as the primary receptionist, welcoming clients, collecting information, and triaging accordingly.
- Managed administrative tasks, including processing paperwork and maintaining timesheets.
- Collaborated closely with debt advisers to anticipate their needs, facilitating efficient client interactions and support. Assisted them with adhoc requests such as research and document preparation to streamline the process.
- Developed and implemented systems to track and communicate the status of waiting clients to improve processes and execution.

## **Committee President**

June 2022 - August 2023

Liberal Arts & Natural Sciences Society

- Led a team of seven in organizing weekly events for a degree cohort of 300+.
- Chaired meetings, made strategic decisions, delegated tasks, and mediated conflicts effectively.
- Planned and executed the annual LANSOC Ball for 100+ students and staff to high guest satisfaction.

## **English Language Tutor**

July 2022 - August 2022

Kadir Has University

- Collaborated with a team of four to organize and deliver English language classes for over 30 Turkish university students, showcasing strong teamwork and communication skills.
- Managed scheduling and resource allocation to ensure smooth delivery of educational programs.

## **EDUCATION**

### **BA Liberal Arts & Sciences w/ Year in Computer Science**

2020 - 2025

First Class

University of Birmingham

- Studied Computer Science, Entrepreneurship, Anthropology, Mandarin and Italian within LANS degree.
- Developed full-stack web application for final year project. Used Jest and Cypress for Unit and End-to-End tests, and conducted UAT with friends and family. Received 73% for the project.
